

# VC Mitchell Park Project Update – February 2024

Shire of Donnybrook Balingup 19 February 2024

The Shire is pleased to report that the VC Mitchell Park Project (VCMP), the Community Club, is on track despite the heatwaves.

Construction of the pavilions at the VCMP site is advancing smoothly, keeping to the timeline and plans despite recent heatwaves. The Shire can also confirm that the block work for level 1 at Pavilion 1 has been successfully completed, and that the wall frames and roof trusses for Pavilion 2 are also finished. We would like to extend our gratitude to the contractor and their hard working bricklayers who have persevered through the challenging conditions experienced over the past two weeks, and for still achieving this milestone.

A site inspection was conducted on 14 February, with the Presence of President MacCarthy and Deputy President Glover, as well as members of the VCMP Project Consultation Group (PCG). The PCG's valuable input and collaboration have continued to be instrumental in guiding the project towards a successful completion.
